## ISPE-CCPIE Training Course will be held in early June, 2009 in Shanghai and Beijing

**Course1:** Sterile Drug Manufacturing Facilities (2 days)

Applying ISPE Baseline? Guide, FDA, EU/PICS and WHO Principles to Design and Operation

**Course2:** Pharmaceutical Water Systems (2 days)

Regulation, Purification, Distribution and Validation

**Instructor:** Gordon Farquharson BSc (Hons), CEng Chartered Consulting Engineer with more than 30 years of experience in quality and safety critical processes and facilities used by industries such as healthcare, life science, micro-electronics, etc. He is Chairman of UK BSI and CEN Technical Committees for cleanroom standards, Convenor of the ISO working group that is revising ISO 14644-1 and 2. He has recently represented ISPE and CEN, working on the EMEA's revision of Annex 1 of the EU GMP. He has also supported ISPE by writing WHO's new Pharmaceutical Water GMP Guidance, and has been active developing and revising ISPE Baseline® Guides.

Please feel free to go to [www.ispe.org.cn](http://www.ispe.org.cn) for further details on ISPE-CCPIE Training course.

## ISPE-CCPIE China Conference 2009 will be held on Mon 26 - Tue 27 Oct. in Shanghai

**Date:** Mon 26 - Tue 27 Oct

**Venue:** Shanghai

Conference details (topics, speaker, and registration) are at planning stage; please feel free to deliver any thoughts and suggestions by contacting [ISPE China Office](#).

## ISPE-CCPIE China Conference 2008 post conference materials are available online!

ISPE-CCPIE China Conference 2008 was held at Radisson SAS hotel in Beijing from 11-12 November, 2008. Renowned speakers including industry experts and representative from FDA, SFDA shared the latest regulatory information and cutting-edge technical knowledge. For materials download, please visit:

[www.ispe.org.cn/C01-general.html](http://www.ispe.org.cn/C01-general.html).

You would find:

Attendee company list / Conference pictures / Conference Presentation download (need password, for attendees only)

Please [contact us](#) to download the conference evaluation form, you could also raise technical questions and we will arrange the answering accordingly.

## Interview with Li Bin: How do you like the ISPE-CCPIE China Conference 2008?

**ISPE Member:** Li Bin

**Join Date:** 2008-8-13

**Company:** Tasly-Sants Pharmaceutical Co., Ltd

**Job Title:** Validation Engineer

Li Bin: There are lots of top and interesting topics included in the conference of 2008. The organization and preparation of the conference is great. How I benefited the most from this conference is that I gained lots of the latest new industry knowledge.

The most favored speaker for me was the person who delivered risk management section (Sion Wyn). The content arrangement and delivery method was very impressive. Of course, others speakers were all very excellent. My expectation for conference 2009 is that I'd like to see topics separated into different levels, such as general, extensive and intensive, to meet different audience requirements. Thus we would have an expectation and make a better choice of which topic to attend.

Overall, I think this is a great event and I look forward to attending the conference of 2009.

## Report from Student Chapter Representative Liu Li – My experience of attending ISPE-CCPIE China Conference 2008.

After attending the ISPE-CCPIE China Conference 2008 in Beijing, student Liu Li wrote a report regarding her unique experience, please find the details at: [http://www.ispe.org/cs/students\\_section/student\\_news#beijing](http://www.ispe.org/cs/students_section/student_news#beijing)  
For more Sichuan University Student Chapter's information and their activities, please visit <http://www.ispe.org.cn/07-stu.html>.

## Find the ISPE Career Exchange at ISPE main website. 【Member Benefit】

ISPE global on-line Career Exchange is available 24 hours a day to better serve the needs of both job seekers and employers. Find the ISPE Career Exchange at:

[http://www.ispe.org/cs/career\\_exchange\\_section/career\\_exchange\\_overview](http://www.ispe.org/cs/career_exchange_section/career_exchange_overview);

You could also find Internship here!

## Interview with ISPE member Qi Jianmin: How do you like ISPE?

**ISPE Member:** Qi Jianmin

**Join Date:** 2008-9-18

**Company:** Hookercockram

**Job Title:** Project & construction Management Senior Process Engineer

Qi Jianmin: I expected to find some experts to talk to and discuss with while joining ISPE. And I appreciated some standards & documents to help me in the pharmaceutical project, production operation and validation. Now I find COP very helpful for my career and I do find many experts for interaction there. I usually log on [www.ispe.org](http://www.ispe.org) to engage in on-line discussions with industry professionals, such as critical utilities & Heating, Ventilation, and Air Conditioning (HVAC). In return, I will also reply the questions about Chinese GMP. It's a good tool for me to learn what's going on in the industry.

I thought the ISPE-CCPIE China Conference 2008 was good, and very successful. It gave us a general education on ISPE and industry guidelines. My opinion is that it's very worthy of attending. For ISPE-CCPIE China Conference 2009, I think that we appreciate some bilingual experts. It could help us better understand and learn more. Though I understand the translation is always a tricky one in events.

ISPE publications are very good and I already BOUGHT ALL OF THEM. I benefit a lot from them. My suggestions: I suggest ISPE to arrange more training for the baseline. Actually, I would like ISPE to arrange training programs per month to cover all the topics of ISPE baseline. As per mentioned by CCPIE, there are more than 4,700 pharmaceutical plants in China but most of them do not have good knowledge for ISPE. Also, it's good for ISPE to develop more local pharmaceutical companies.

## Morten Stenkilde and Jens Moth gave speech for 2008 International Forum on Drug GMP

ISPE Greater China Steering Committee member, Morten Stenkilde and Jens Moth gave a speech for '2008 International Forum on Drug GMP' on December, 2008, which was organized by SFDA and facilitated by the CCPIE (key partner of ISPE in China) and Drug Certification Center. More than 240 participants from provincial Food and Drug Administrations, domestic and international drug manufacturers took part in this forum, exchanging their views on the implementation of GMP, the international trend on GMP and relevant laws and regulations.

## ISPE Event Calendar
