

# ISPE 2009 Schedule at a Glance

ISPE offers an international schedule of industry-developed conference seminars, training courses, and Webinars to help you get the knowledge you need. ISPE can provide the resources that address your current job concerns, and provide solutions to your company's immediate goals to lower production costs, improve process efficiency, increase production quality, and meet regulatory compliance.

Conference  
Join industry leaders to discuss current trends and best practices.  
Enjoy several networking opportunities.

Date	Location	Event Topics
13-15 September	Sydney, Australia	<b>ISPE Australasia Conference</b> This conference brings both global and local perspectives on the changing environment through shared experience, best practices and insights as companies embrace new processes and technologies. Conference topics include innovation, lean six sigma, manufacturing operations, quality by design, risk assessment, project management, and efficient and effective compliance.
28 September-1 October	Strasbourg, France	<b>ISPE Conference on Quality – Knowledge Through Science</b> In depth seminars on barrier isolation, investigational products, GAMP® 5 - operational aspects, science and risk-based approaches to cleaning, biopharmaceutical manufacturing and process development, and PQLI®. Training courses include Basic Principles of Computerized Systems Compliance (GAMP® 5) and cleaning validation principles.
26-27 October	Shanghai, China	<b>ISPE-CCPIE China Conference 2009</b> With the theme of “Facilitating internationalization of China Pharmaceutical Industry”, this year’s conference will feature several keynote presentations and nine workshops consisting of the typical interactive presentations dealing with issues relating to sterile, HVAC, validation, GAMP®, etc.
8-11 November	San Diego, California, USA	<b>ISPE 2009 Annual Meeting</b> Watch <a href="http://www.ISPE.org/annualmeeting">www.ISPE.org/annualmeeting</a> for additional details and online registration. Event includes dozens of education sessions on critical topics within 11 tracks; Product Development, Facilities and Equipment, Information Systems, Supply Chain Management, Production Systems, Regulatory Compliance, Quality Systems, Project Management, Investigational Products, Supplier-Focused, and Survival. Annual Meeting also provides networking events, table top exhibits, and sponsorship opportunities.

Training  
Onsite and online training available

Date	Location	Event Topics
5-8 October	Philadelphia, Pennsylvania, USA	Training provides skills and knowledge in the areas of pharmaceutical water generation and operation, HVAC, commissioning and qualification, sterile drug manufacturing facilities, oral solid dosage forms, and clinical trial materials. For more details, visit <a href="http://www.ISPE.org/philadelphiatraining">www.ISPE.org/philadelphiatraining</a> .

**ISPE Onsite Training:** Receive Expert Training at Your Worksite  
Our trainers will work hand-in-hand with your company to create a dynamic instructional program where your employees will have the opportunity to explore new concepts, review current trends and innovations in technology, uncover techniques and advanced practices, and seek practical solutions to their challenges. Our library includes Good Manufacturing Practice (GMP) courses tied to the GMP Institute, as well as titles on HVAC, GAMP® 5, pharmaceutical water generation, and more.

Most courses are two-days long and can accommodate up to 30 participants. Contact ISPE Member Services at tel: +1-813-960-2105, or visit [www.ISPE.org/onsitetraining](http://www.ISPE.org/onsitetraining) for more information.

[www.ISPE.org/globalcalendar](http://www.ISPE.org/globalcalendar)
